# *Subject and Author Index to Volume 30*

Abstracts, from Nutrition Week 2006, S1 (Jan–Feb)
*N*-Acetylcysteine, as precursor for cysteine in neonatal piglet on PN, 133
Adults, long-term PN and liver failure in, 202
Age
  fluid balance and serum $Na^+$ and $K^+$ after nasogastric tube feeding in stroke patients and, 321
  references values for bioelectrical impedance phase angles and, 309
Aged, femoral neck fractures in, peptide YY levels and, 530
Albumin, gut ischemia-reperfusion GALT atrophy and, 380
Amino acids
  branched chain, synthesis of protein and glutamine in sepsis with, 467
  concentration in arterial blood during steady-state infusions, 277
Anorexia nervosa, enteral nutrition and, 231
Antibiotics, long-term, effects on GALT, 395
Antioxidants, supplementation after acute ischemic stroke, B-group vitamins and, 108
Ataxia, severe, copper deficiency and, 446

Bacterial contamination, of enteral nutrition systems, 519
Barbiturate coma, for traumatic brain-injury, enteral nutrition and, 503
Bioelectrical impedance analysis, phase angle population reference values, 309
Biomedical science
  authorship of scientific papers and, 368 (Editorial)
  vulnerability of, 266 (Editorial)
Body composition, early PN in patients with advanced cancer and, 222
Body fluids, age differences in fluid balance and serum $Na^+$ and $K^+$ after enteral nutrition in stroke patients, 321
Body mass index (BMI), references values for bioelectrical impedance phase angles and, 309
Bone
  home PN effects on, 492
  short bowel syndrome and growth hormone effects on, 480
Brain injury
  traumatic, barbiturate coma for, enteral nutrition and, 503
  traumatic *vs.* nontraumatic, energy expenditure in, 71
Burns, severe, protein metabolism quantification *in vivo* for skin, wound, and muscle in, 331

Cachexia, whole-body protein metabolism in chronic heart failure and, 194
Calorimetry
  handheld unit for energy expenditure estimates, 246
  system type, day-to-day variance in measurement of resting metabolic rate and, 426
Cancer
  advanced, early PN and, 222
  head and neck, malnutrition and nonthyroidal illness in, 415
Carbohydrates, surgery-induced immunodepression and beverage before surgery with, 21
Carnitine
  bioavailability of supplementation in premature infants, 421
  treatment in hemodialysis, 10
Catheters
  central venous, needleless connector and occlusion in children, 85
  central venous, peripherally inserted, Horner's syndrome and, 451
  central venous, peripherally inserted, sutured in children, complications and, 532
  central venous thrombosis, choline deficiency and, 317
Celiac disease, pancreaticoduodenectomy and, 60 (Letter)
Children
  needleless connector and central venous catheter occlusion in, 85
  overweight, chronic constipation in, 81
  sutured securement of peripherally inserted central catheters and complications in, 532
Choline, deficiency, central venous thrombosis and, 317
Chronic illness, problems with home parenteral nutrition and, 215
Chyle, selenium loss in, selenium deficiency and, 173
Cirrhosis, liver, encephalopathy with, immune-enhancing nutrition supplement and, 91
Clonidine, diarrhea, sodium loss and, 487
Constipation, chronic, in overweight children, 81
Copper deficiency, severe neurologic symptoms due to, 446
Critically ill patients
  amino acid concentrations during steady-state infusion in, 277
  beneficial effects of glutamine and HSF-1 expression in, 373
  hyperglycemia, nutrition support and, 175
  hyperglycemia and, 254
  insulin therapy and in-hospital mortality in, 164
  on nutrition support, graduated dosing for phosphorus replacement in, 209
  stress hyperglycemia and, 157
Crocetin, inflammatory mRNA expression inhibited by, 297
Curcumin
  nutrition research on, 61 (Editorial)
  as shield against acute and chronic diseases, 45
Cyclooxygenase-2, curcumin and inhibition of, 45
Cysteine, *N*-acetylcysteine as precursor in neonatal piglet on PN for, 133

Dextrose, dose from PN in hematopoietic stem cell transplant patients, hyperglycemia and, 345
Diamine oxidase, activity in CPT-11-treated intestinal mucosa treated, 124
Diarrhea, clonidine for jejunostomy patients and, 487
Dietary formulations. *See also* Infant formula
  in acute pancreatitis, 1, 66 (Editorial)
  amino acid concentration in arterial blood during steady-state infusions of, 277
  intestinal mucosal growth and type of, 32
  new parenteral lipid emulsions for clinical use, 351
  parenteral, determinants of insulin availability in, 6

Embryonic stem cell research, 266 (Editorial)
Encephalopathy, liver cirrhosis with, immune-enhancing nutrition supplement and, 91
Energy expenditure
  estimates, handheld calorimetry unit for, 246
  nontraumatic intracranial hemorrhage and, 71
  postprandial, glutamine supplementation and, 76
Energy substrates
  protein degradation in small intestinal enterocytes from rats and, 497
Enteral nutrition
  in acute pancreatitis, semi-elemental *vs.* polymeric formula for, 1
  in acute pancreatitis, study size and, 66 (Editorial)
  anorexia nervosa and, 231
  barbiturate coma for traumatic brain-injured patients and, 503
  feeding guidelines for low-birth-weight infants in NICU, 515
  feeding pump systems, differences in accuracy of, 339
  fluid balance and serum $Na^+$ and $K^+$ in stroke patients on, 321
  glutamine-enriched, intestinal permeability in VLBW infants and, 408
  health care costs and, 52
  lack of, and NFκB activation delays in experimental peritonitis, 179
  long-term jejunal feedings in relapsing pancreatitis, 251
  systems for, bacterial contamination of, 519
Euthyroid sick syndrome, malnutrition in head and neck cancer patients and, 415
Evidence-based medicine, nutrition support and, 63 (Editorial)

Fats, dietary
  neutrophil functions and leukocyte–endothelial cell interactions with, 286
  postprandial, glutamine supplementation and, 76
Fatty acids
  composition in CPT-11-treated intestine, 124
  in new parenteral lipid emulsions for clinical use, 351
  ω-3 dietary supplementation, modulation of macrophage inflammation and, 271
  profiles in liver and skeletal muscle in short-gut rats fed *via* parenteral nutrition, 27
Feeding pump systems, for enteral nutrition, differences in accuracy of, 339
Feeding tubes
  insertion, patient injury prevention and, 440
  PEG, external bolster placement after insertion of, 16
Flavonoids, preoperative supplementation effects on organ function, 302
Folk medicine, nutrition research and, 61 (Editorial)
Fractures, of femoral neck in elderly patients, peptide YY levels and, 530

Gastroenteritis, viral, oral rehydration in adults for, 433
Gatorade, oral rehydration therapy for viral gastroenteritis in adults using, 433
Glucose, IV hypertonic, exocrine pancreas in rat and, 40
Glutamine
  HSF-1 expression and beneficial effects of, 373
  HSF-1 expression and inflammatory injury attenuation by, 400
  supplementation, postprandial EE and fat oxidation and, 76
  synthesis of BCAA and protein in sepsis with, 467

Growth hormone, effects on bone in short bowel syndrome, 480
Gut-associated lymphoid tissue (GALT)
albumin prevention of atrophy after ischemia-reperfusion injury to, 380
IL-7 effects on, 388
long-term antibiotic therapy and, 395

Health care costs
enteral nutrition and oral nutrition supplements and, 52
information technology and, 464 (Editorial)
nutrition interventions, nutrition supplements and, 63 (Editorial)
Heart failure, chronic, whole-body protein metabolism in, 194
Heat shock factor-1
glutamine attenuation of inflammatory injury and, 400
glutamine effects in injury and, 373
Hemodialysis, carnitine treatment in, 10
Hemorrhage, nontraumatic intracranial, energy expenditure in, 71
Hemorrhagic shock, crocetin inhibition of mRNA expression in, 297
Home parenteral nutrition
metabolic bone disease and, 492
problems with, 215
Horner's syndrome, peripheral central catheter insertion and, 451
Hyperglycemia
in critically ill patients, 254
dextrose dose from PN in hematopoietic stem cell transplant patients and, 345
nutrition support, acute illness and, 175
stress-related, metabolic mechanisms of, 157
Hyperglycemic hyperinsulinemia, post-surgical small-intestinal mucosal protein synthesis, 97
Hypertaurinemia, in obstructive jaundice, 186

Immunodepression, surgery-induced, carbohydrate-rich beverage before surgery and, 21
Immunoglobulin A
intestinal, IL-7 effects on, 388
intestinal, long-term antibiotic therapy effects on, 395
Immunonutrition, perioperative, 539 (Editorial)
Infant formula. *See also* Dietary formulations
protein amount in, for low-birth-weight infants, 507
Infants, low-birth-weight
NICU feeding guidelines for, 515
protein amount in formula for, 507
Infants, premature
bioavailability of carnitine supplementation in, 421
Infants, very-low-birth-weight
glutamine-enriched EN effect on intestinal permeability in, 408
Infections. *See also* Sepsis
after PEG, external bolster placement and, 16
needleless connector for central venous catheter in children and, 85
PEG placement without skin incision and, 240
Inflammation
cytokine-induced, HSF-1 expression and glutamine attenuation of, 400
interface of clinical nutrition and medicine and, 453
new parenteral lipid emulsions for clinical use and, 351
ω-3 dietary supplementation and, 271
Information technology in health care, 464 (Editorial)
Insulin
availability in parenteral nutrition solutions, 6
therapy in critically ill patients, in-hospital mortality and, 164
Intensive care units
differences in accuracy of enteral nutrition feeding pump systems and, 339
neonatal, feeding guidelines for patients in, 515
Interleukin-1β, crocetin inhibition of mRNA expression for, 297
Interleukin-7, effects on GALT, 388
Intestinal mucosa
CPT-11 treated, fatty acid composition of, 124
growth of, elemental diet *vs.* milk-based formula and, 32
high PN infusion and, 474
protein synthesis, hyperglycemic hyperinsulinemia after surgical stress and, 97
Intestine
morphology of, high PN infusion and, 474
permeability of, glutamine-enriched EN in VLBW infants and, 408
Irinotecan hydrochloride (CPT-11), fatty acid composition of intestinal mucosa treated with, 124
Ischemia-reperfusion injury
albumin prevention of GALT atrophy after, 380
preoperative flavonoid supplementation and, 302

Jaundice, obstructive, hypertaurinemia in, 186
Jejunostomy
clonidine effects on diarrhea and sodium loss with, 487
relapsing pancreatitis and long-term feedings with, 251
*Journal of Parenteral and Enteral Nutrition*, authorship of scientific papers for, 368 (Editorial)

Leukocyte–endothelial cell interactions, nutritional lipids effects on, 286
Lipoxygenase, curcumin and inhibition of, 45
Literature review. *See also* Medical journals
hyperglycemia in critically ill patients, 254
of nutrition support in acute pancreatitis, 143
Liver
PN-associated injury to, liver transplantation for, 526
in short-gut rats fed *via* parenteral nutrition, fatty acids profile of, 27
Liver failure, long-term PN in adults and, 202
Lymphocytes, soybean oil emulsion toxicity on, 115

Malnutrition, nonthyroidal illness in head and neck cancer patients and, 415
Medical journals. *See also* Literature review
authorship of scientific papers for, 368 (Editorial)
Medicine, inflammation as key interface of clinical nutrition and, 453
Metabolic bone disease, home PN and, 492
Metabolic cart, energy expenditure estimates with handheld calorimetry unit *vs.*, 246
Mortality, in-hospital, of critically ill patients, insulin therapy and, 164
Multiple organ dysfunction syndrome, beneficial effects of glutamine and HSF-1 expression in, 373
Muscle, skeletal
protein metabolism quantification *in vivo* in severe burn patients, 331
in short-gut rats fed *via* parenteral nutrition, fatty acids profile of, 27
Myelopathy, copper deficiency and, 446

Neutrophils
nutritional lipids effects on functions of, 286
soybean oil emulsion toxicity on, 115
Nitric oxide synthase, inducible
crocetin inhibition of mRNA expression for, 297
curcumin and inhibition of, 45
Nonthyroidal illness, malnutrition in head and neck cancer patients and, 415
Nose-clip indirect calorimetry, day-to-day variance in measurement of resting metabolic rate and, 426
Nuclear factor-κ B
activation, lack of enteral nutrition in experimental peritonitis and, 179
curcumin and inhibition of, 45
Nutrition supplements
immune-enhancing, liver cirrhosis with encephalopathy and, 91
oral, health care costs and, 52
Nutrition support
in acute pancreatitis, 143, 536 (Letter), 537 (Letter reply)
in critically ill patients, hyperglycemia and, 175
graduated dosing for phosphorus replacement and, 209
health care costs and, 63 (Editorial)
perioperative immunonutrition, 539 (Editorial)

Oral rehydration therapy, for viral gastroenteritis in adults, 433
Overweight, chronic constipation in children and, 81

Pancreas, exocrine, IV hypertonic glucose stimulation of, 40
Pancreaticoduodenectomy, celiac disease and, 60 (Letter)
Pancreatitis, acute
enteral nutrition feeding types in, 1, 66 (Editorial)
nutrition support in, 143, 536 (Letter), 537 (Letter reply)
ω-3 dietary supplementation and, 271
relapsing, long-term jejunostomy feedings in, 251
Parenteral nutrition (PN)
*N*-acetylcysteine as precursor for cysteine in neonatal piglet on, 133
determinants of insulin availability in, 6
dextrose dose from, hyperglycemia after hematopoietic stem cell transplantation and, 345
early, in patients with advanced cancer, 222
fatty acid profiles in liver and skeletal muscle lipids in short-gut rats fed *via*, 27
home, problems with, 215
intestinal complications and high infusion of, 474
intestinal mucosal growth, feeding type and, 32
IV hypertonic glucose stimulation of exocrine pancreas and, 40
liver transplantation for injury associated with, 526
long-term, liver failure in adults on, 202
safe practices, results of the 2003 A.S.P.E.N. Survey, 259
selenium loss in chylous fluid, selenium deficiency and, 173

Pedialyte, oral rehydration therapy for viral gastroenteritis in adults using, 433
Peptide YY, in elderly patients with femoral neck fractures, 530
Percutaneous endoscopic gastrostomy tube
  external bolster placement after insertion of, 16
  placement without skin incision, 240
Peripheral neuropathy, copper deficiency and, 446
Peritonitis, experimental, lack of enteral nutrition and NF-κ B activation in, 179
Peyer's patch lymphocytes, long-term antibiotic therapy and, 395
Phosphorus, replacement, graduated dosing in nutrition support for, 209
Physicians, information technology and, 464 (Editorial)
Potassium ion, serum levels, age differences in fluid balance in stroke patients and, 321
Premature infants, bioavailability of carnitine supplementation in, 421
Presidential Address
  Inflammation as the Key Interface of the Medical and Nutrition Universes: A Provocative Examination of the Future of Clinical Nutrition and Medicine, 453
Protein
  amount in formula for low-birth-weight infants, 507
  degradation, energy substrates effects on, 497
  metabolism quantification *in vivo* for skin, wound, and muscle in severe burn patients, 331
  synthesis of BCAA and glutamine in sepsis with, 467
  whole-body metabolism in chronic heart failure, 194
Psychological factors, anorexia nervosa, enteral nutrition and, 231

Quality of life
  carnitine treatment in hemodialysis and, 10
  early PN in patients with advanced cancer and, 222

Red wine, nutrition research on, 61 (Editorial)
Resting metabolic rate, day-to-day variance in measurement of, 426

Safe Practices for Parenteral Nutrition, results of the 2003 A.S.P.E.N. Survey, 259
Safety
  bacterial contamination of enteral nutrition systems and, 519
  feeding-tube insertion and, 440
Scientific freedom, vulnerability of, 266 (Editorial)
Selenium, loss in chylous fluid, deficiency due to, 173
Sepsis. *See also* Infections
  glutamine, BCAA, and protein synthesis in, 467
Sex, references values for bioelectrical impedance phase angles and, 309
Short bowel syndrome, growth hormone effects on bone in, 480
Skin incision, PEG placement without, 240
Small intestine, protein degradation in, energy substrates and, 497
Sodium, clonidine for patients with proximal jejunostomy and, 487
Sodium ion, serum levels, age differences in fluid balance in stroke patients and, 321
Soybean oil emulsion, toxicity on lymphocytes and neutrophils, 115
Stem cell transplantation, hematopoietic, dextrose dose from PN, hyperglycemia and, 345
Stress, metabolic mechanisms of hyperglycemia with, 157
Stroke
  acute ischemic, B-group vitamins and antioxidant supplementation after, 108
  enteral nutrition for, age differences in fluid balance and serum $Na^+$ and $K^+$ in, 321
Surgery. *See also* Critically ill patients
  carbohydrate-rich beverage before, 21
  flavonoid supplementation prior to, 302
  hyperglycemic hyperinsulinemia and small-intestinal mucosal protein synthesis after, 97
  immunonutrition prior to, 539 (Editorial)
Surgery Journal Authorship, Consensus Statement (2006) on, 368 (Editorial), 370
Sutures, for peripherally inserted central catheters in children, 532

Taurine, obstructive jaundice and, 186
Thrombosis
  central venous, choline deficiency and, 317
  central venous, Horner's syndrome and, 451
Transplantation, liver, for PN-associated liver injury, 526
Tumor necrosis factor-α, crocetin inhibition of mRNA expression for, 297

Ventilated hood calorimetry, day-to-day variance in measurement of resting metabolic rate and, 426
Very-low-birth-weight (VLBW) infants, glutamine-enriched EN effect on intestinal permeability in, 408
Vitamins, B-group, antioxidant supplementation after acute ischemic stroke and, 108
